Thanks for downloading my Fringe Observer font.

This font is for non-commercial use only and is dedicated to all the Fringe fans out there.

My source were the three pics on the left, just like my other fonts DingTrek, Sci-Fi-Logos, the Lost Font and Galactica Pyramid Game this font is recreated with CorelDraw.

It contains more than 80 different characters, so it took a few weeks to finish this font.

Please send your feedback and if you like donations to

Hope you like it.
